There was request for help with 4H. The program requires two leaders to be present. Anyone interested in helping should contact Cindy or the Club.

Marcus Wright asked the membership for samples of their locally harvested honey. The samples will be used in a project with David Tarp (NCSU) aimed to classify honey according to its nectar and regional origin.

Bee school is coming early 2025 (see August's minutes for dates). Brian Cain explained we need people to demonstrate some basic techniques. If you keep bees, you are more than qualified to help.
